MODENA™

FREESTANDING WHIRLPOOL BATH

JETTED BATHTUB IN A FREESTANDING DESIGN

JACUZZI, the original inventor of the hydro-massage bath, now makes it possible to match your love for freestanding design with the ultimate luxury of a jetted whirlpool bathtub.

The **MODENA™** Freestanding Whirlpool Bath features eight SlimPro® jets that offer Aqualibrium™ — the perfect balance of air and water resulting in a powerful, yet comfortable massage.

The positioning of the SlimPro® jets optimizes the massage in areas where your body needs it most, while their flush-mount installation maximizes comfort and offers a subtle look. The jet system is fully enclosed within the skirt of the bathtub, eliminating the need for remote equipment or make-shift cabinetry.

SLEEK ELECTRONIC CONTROLS STANDARD

Whisper⁺

66%

The Modena™ Freestanding Whirlpool Bath features Whisper+ Technology™. This unique technology **reduces the noise and vibration associated with standard whirlpool baths up to 66%***, making the sound of moving water a true pleasure for the ear, like the waves of the ocean. You may both feel and hear the stresses of the day dissolve.

In addition, **Whisper+ Technology™ uses 60% less energy** than a standard heated whirlpool system.** The efficient brushless pump motor transfers heat energy back into the water, maintaining your water temperature.

60%

Whisper+ Technology™ takes quiet to a new level by mounting the pump motor on the exclusive Whisper Technology™ vibration-reducing base. Think of it as two levels of supreme silence.

clean|line™

The jet system's water lines are engineered with anti-microbial additives to ensure the purity and durability of the jetting system, providing a cleaner bathing experience. When finished with your bath, the drain-down plumbing system assists in proper drainage.

CHROMATHERAPY

Unique multi-color LED lighting comes standard and is managed through sleek electronic controls. Select the color that fits your mood.
